

Welcome to McLaren Health Plan, where *care* is in everything that we do. For more than a decade now, we have helped Michigan residents stay healthy through our innovative preventive programs and our network of exceptional doctors and hospitals that expand across Michigan. At McLaren Health Plan we live our mission every single day. We show we *care* through personal calls to every new member to make sure that they know how to best take care of themselves, and we also offer specialist visits within our network without a referral.

We also appreciate the challenges facing today's business owners, that's why McLaren Health Plan focuses on quality care. We strive to keep our members healthy and out of the emergency room, thus saving cost, and **most important**, saving lives.

Care. It's in everything we do at McLaren Health Plan. We invite you to experience our care today by calling us at (888) 327-0671, by contacting your agent, or visit us on line at www.mclarenhealthplan.org.
