

McLaren Health Plan (MHP) is committed to promoting healthy lifestyles to our members. Please **join us** in this effort by providing the following preventive screenings for women:

- **Mammograms** are recommended every two years for women 50-74 years of age.
- **Cervical cancer screening** is recommended every 1-5 years for women 21-64 years of age. This can be one of the following services:
 - Cervical cytology (Age 21-64 every 1-3 years);
 - Cervical high-risk HPV testing (Age 30-64 every 1-5 years) or
 - Cervical cytology and high-risk HPV co-testing (Ages 30-64, every 1-5 years)
- **Chlamydia testing** is recommended for all women 16-24 years of age (and males 16-18 years of age.)

SEE THE INCLUDED INCENTIVE PAYMENT FLYERS FOR CHLAMYDIA AND BREAST CANCER SCREENINGS

MHP measures the success of our outreach programs. A continued focus and a strong partnership with you will aid in providing these important screenings to all eligible members. **Please help our members get these important tests by scheduling an office visit that includes preventive screenings.** If we can assist your office by contacting these members, or if you would like a list of your patients who have not received these tests, please email us at MHPOutreach@mcclaren.org.

Health Screening Measure	Current screening rate	Goal screening rate
Mammogram 50-74 year old	62%	64%
Pap smear 21-64 year old	65%	66%
Chlamydia testing 16-24 year old	59%	65%

Additional outreach is provided to our pregnant women. Our *McLaren Moms* program is available for all pregnant women. The program provides access to a nurse case manager, and multiple educational mailings with information on a healthy pregnancy. The nurse case manager is available to assist with high needs members, routine postpartum follow-up education and planning. **Please contact us with any pregnant members** and we will include them in our *McLaren Moms* program.

We look forward to working in partnership with you to assist our members in achieving optimal health. If you would like a list of your assigned patients who need these services or if you have questions or would like more information, please email us at MHPOutreach@mcclaren.org.

Remember to talk to your patients about tobacco cessation. MHP has a free tobacco cessation program for MHP Community and Medicaid members. Call 800-784-8669 for more information.

Thank you for the quality care you deliver!
