

McLaren Health Plan (MHP) is pleased to announce the

2027 Controlling Blood Pressure Incentive

for Medicaid members

The Controlling Blood Pressure Incentive is designed to reward and recognize McLaren Health Plan's (MHP) Primary Care Providers (PCP) for excellent quality care.

As an incentive for meeting NCQA HEDIS benchmarks, MHP will reward you for each compliant member assigned to you, as described below:

Incentive	NCQA Percentile
\$25 per member	NCQA 50th Percentile
\$50 per member	NCQA 75th Percentile

In order to receive your incentive payment for each of your members, the member must be seen by Dec. 31 in the measurement year. You must submit a claim or supplemental data feed to MHP by March of the following year. The member's last blood pressure reading of the year must be under 120/80 in order to be compliant.

Your current year incentive payment will be distributed in the summer of the following calendar year.

McLaren Health Plan retains the right to audit any of their providers at any time. Failure to comply with these audit requests, including any adverse audit findings, may impact the provider's ability to earn provider incentive payments.

If you would like to set up a supplemental data feed directly with McLaren, please notify your assigned Provider Relations Representative.

Thank you for the quality care you deliver!
