One McLaren PathNet Order Catalog Activation

On 3/20/2023 the new PathNet lab catalog will be activated. You will see the new catalog as well as the old MLab (ALab) catalog until go-live on 6/3/2023. During this transition period there are alerts built within Cerner to guide ordering providers in the event the wrong lab order is selected. Examples are shown below. All MLab orders are denoted with a proceeding (M). PathNet lab orders will appear without the (M) indicating that this order should only be used if the testing needs to occur on or after 6/3/2023. During this transition period, providers must update all of their favorite PowerPlans as well as any favorite lab orders. Please reference page 7 for a list of test patients to use when updating your orders.

P Discern: (1 of 6) — 🗆 👋	P. Disce
Gerner Invalid Start Date - PathNet Order	Cer
You are attempting to sign or activate a PathNet laboratory order with a start date before 6/3/23:	
Culture Throat	
PathNet orders can only be entered as Future orders with a start date on/after 6/3/23.	
If this lab work is intended to start prior to 6/3/23, please enter or activate the ALAB (MLAB) order equivalent containing "(M)".	
Choose Cancel to remove the order.	
Choose Modify to go back and adjust the order.

How to Update Favorite PowerPlans

P Plan Favorite Notification	×						
Select Continue and resave your plan favorite SURG Perioperative Phased to no longer receive this notification.							
The changes below have been made to the standard plan since this favorite was created. An additional message may follow to provide notifications specific to your plan choices. Review the plan in its entirety.							
Notifications:							
3/6/2023 14:58 EST Your Favorite Plan has been updated with new PathNet Orders.	^						
If you click. CONTINUE, you will be able to use your old saved favorite PowerPlan and create a new favorite PowerPlan with PathNet orders (the lab orders without the M after them) and a new name.							
We recommend ending your new Plan name with "on or after 6/3/23".							
Use your old favorite for services before 6/3/23 and your new favorite for services on or after 6/3/23. After 6/3/23, you can delete your original favorite for the M Labs. Keep your new favorite with the Path Net orders.							
DO NOT CLICK "LOAD STANDARD PLAN". It will load a plan without any favorites checked.							
Choose cancel to exit the plan. Select Continue							
Continue	~
